

ASGSA
Advisory Committee Special Meeting
Greenfield Civic Center
599 El Camino Real
Greenfield, CA 93927

Meeting Agenda
June 13, 2018
1:00 P.M.

Your courtesy is requested to help our meeting run smoothly.

Please follow the following rules of conduct for public participation in the meetings:

- Refraining from public displays or outbursts such as unsolicited applause, comments or cheering.
- Any disruptive activities that substantially interfere with the ability of the Agency to carry out its meeting will not be permitted and offenders will be requested to leave the meeting.

PLEASE TURN OFF CELL PHONES AND PAGERS

1. RECEIVE HYDROLOGIC COUNSULTANT PRESENTATIONS

- a. EKI Environment & Water – 1:00 p.m.
- b. Todd Groundwater – 2:00 p.m.

2. PUBLIC COMMENTS REGARDING ITEMS ON THE AGENDA – A three-minute time limit may be imposed on all speakers.

3. APPROVAL OF MAY 9, 2018 MINUTES

4. ASGSA PARTICIPATION IN THE SALINAS BASIN AG WATER ASSOCIATION – PROJECT DEVELOPMENT COMMITTEE

5. GSP STATUS UPDATE – REVIEW ASSESSMENT OF HYDROGEOLOGIC CONSULTANTS QUALIFICATIONS

6. DWR BASIN RE-PRIORITIZATION

7. ASGSA GY 2018-2019 DRAFT BUDGET

8. RECOMMEND BOARD OF DIRECTORS CONSIDER CONSULTANT SELECTION PROCESS

9. NEXT STEPS

ADJOURNMENT

In compliance with the American With Disabilities Act, if you need special assistance to participate in this meeting, please contact the City Clerk at (831) 674-5591. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to the meeting (CFR 35.102-35.104 ADA Title II).

This agenda is duly posted outside City Hall and on the City of Greenfield web site

ASGSA

Advisory Committee Meeting Minutes

May 9, 2018

1. **Public Comment -**
 - a. No public comments were presented.
2. **Approval of March 14, 2018 Meeting Minutes**
 - a. Committee approved the 4/11/18 meeting minutes.
3. **Management Area Update**
 - a. Committee received verbal report from the ASGSA General Manager regarding the status of negotiations to form a Management Area (MA) that would include Clark Colony and petitioned lands that were submitted to the Department of Water Resources to form the ASGSA. Committee wanted Coordination Agreement process outline following the agreement to agree execution.
4. **ASGSA Participation in the Salinas Basin Ag Water Association – Project Development Committee.**

The SBAWA group has been working on developing a project list. Committee discussed the lack of information regarding how the list was to be used, and what public input process to be used in the development of the SVBGSA GSP. Next meeting is scheduled for the 24th of May at the Grower/Shipper office in Salinas.
5. **GSP Status Update**
 - a. GM reported the Request for Qualifications was out and several organizations had been in contact regarding submitting Qualifications. The Committee discussed recharge, Nacimiento Siphon, and modeling to be used and developed in the SVBGSA GSP. Committee discussed and agreed that the modeling elements was important and recognized the need to get additional ASGSA technical support to assist with the review of the SVBGSA Groundwater Sustainability Plan (GSP) or in the event the ASGSA creates their own GSP.
6. **Next Steps**
 - a. The committee requested the GM to attend the SVBGSA out reach meeting schedule for May 10, 2018.
7. **Adjourn**
 - a. Meeting was adjourned at 2:30 pm

California Department of Water Resources Groundwater Basin 2018 Re-Prioritization

Under the Sustainable Groundwater Management Act (SGMA) DWR has the responsibility to monitor and ultimately ensure long-term groundwater sustainability. In 2014 DWR provided its initial prioritization of the State's groundwater basin. On May 18, 2018, the DWR issued revised prioritizations for all 518 groundwater basin under DWR jurisdiction. The entire Forebay sub-basin was reprioritized from Medium priority to High priority. In terms of the need to complete a groundwater sustainability plan (GSP) the re-prioritization does not change the requirement to file and execute a GSP, nor the due date of January 2022.

The criteria used to determine each basin's priority is listed below:

1. The population overlying the basin.
2. The rate of current and projected growth of the population overlying the basin.
3. The number of public supply wells that draw from the basin.
4. The total number of wells that draw from the basin.
5. The irrigated acreage overlying the basin.
6. The degree to which persons overlying the basin rely on groundwater as their primary source of water.
7. Any documented impacts on the groundwater within the basin, including overdraft, subsidence, saline intrusion, and other water quality degradation.
8. Any other information determined to be relevant by the department, including adverse impacts on local habitat and local streamflows.

The most significant apparent change was a result of the DWR findings under criterion Nos. 7 and 8 that the Forebay has demonstrated long-term decline in groundwater elevations. Staff's review of the data used to reach this conclusion finds the Forebay does not exhibit long-term groundwater decline, and recommends the ASGSA submits comments to the DWR regarding our review of the data.
