**RE:** City Parking Regulations

---

The City's Parking ordinance has not been revised on parking issues that have been identified since the employment of a Code Enforcement Officer. There is extensive confusion regarding parking of vehicles, trucks and trailers on city streets and private property. Attachment No. 1 is the current Parking Ordinance contained in Chapter 17 of the City municipal code and attachment #2 is a proposed ordinance that is recommended to address parking conflicts in the City.

Staff will be making a presentation regarding this issue and explaining the proposed parking ordinance.

### 17.58.010 Purpose:

---

This chapter establishes regulations, which provide for safe, attractive, and convenient off street parking and loading and to ensure that parking areas are compatible with surrounding land uses and promote convenient alternatives to traditional motorized travel. (Ord. 473 §3, 2007)

### 17.58.020 Applicability:

---

Except as otherwise provided in adopted development agreements, specific plans, planned unit developments, or other agreements and plans that allow deviation to off street parking requirements, off street parking and loading provisions of this chapter shall apply as follows:

- A. New Development: For all buildings or structures erected and all uses of land established after the effective date of this title, parking and loading facilities shall be provided as required by this chapter. Except as otherwise specifically conditioned, projects with unexpired land use and development approvals on the effective date hereof have the option of meeting the parking requirements of the zoning code in effect on the project approval date or be subject to the provisions required herein.
- B. Change In Use: When the use of any building, structure, or premises is changed, increasing the intensity such that the change creates an increase of more than ten percent (10%) in the number of off street parking

spaces required by the change, additional off street parking spaces shall be provided in accordance with the requirements of this chapter.

C. **Modification To Existing Structures:** Whenever an existing building or structure is modified such that it results in an increase of more than ten percent (10%) in the number of off street parking spaces required, additional off street parking spaces shall be provided in accordance with the requirements of this chapter. (Ord. 473 §3, 2007)

**17.58.030 Permit Requirements:** 

---

A. **Building Permit:** New parking lot design and modifications to existing parking lots areas in conjunction with a substantial change in use to an existing structure shall be reviewed in conjunction with the building permit and any other land use or development permit required for the project.

B. **Zoning Clearance:** Modification or improvement to an existing parking lot area that impacts the parking space layout, configuration, or number of stalls shall require zoning clearance to authorize the change as consistent with this title. Specifically, the designated approving authority shall review proposed plans for initial paving, resurfacing, and/or restriping of off street parking areas that alters the number and/or configuration of parking spaces or corresponding landscape planters for multi-family and nonresidential uses.

C. **Exempt Activities:** Parking lot improvements listed below shall be considered minor in nature in that they do not alter the number or configuration of parking stalls. Such improvements shall be exempt from permit requirements.

1. Repair of any defects in the surface of the parking area, including holes and cracks.
2. Resurfacing, slurry coating, and restriping of a parking area with identical delineation of parking spaces.
3. Repair or replacement in the same location of damaged plantings and curbs.
4. Sprinkler line repair or refurbishment of landscaped areas with similar plant species. (Ord. 473 §3, 2007)

**17.58.040 General Parking Regulations:** 

---

A. Location Requirements For Off Street Parking Spaces:

1. Except as otherwise permitted herein, all required off street parking spaces shall be accessible to and located on the same lot as the use and/or development requiring such spaces.
2. Parking spaces shall not be located within any required setback area of any parcel.
  - a. Vehicle parking (and access thereto) in residential areas shall be on permanent paved or other approved surface consistent with section [17.58.090](#), "Parking Design And Development Standards", of this chapter. Exceptions may be granted when such construction mitigation is required to reduce the impact within the drip line of a protected tree.
  - b. Parking may not occur within any required clear vision triangle area on a corner lot.
  - c. Parking spaces shall not preclude direct and free access to stairways, walkways, elevators, any pedestrian accessway, or fire safety equipment. Such access shall be a minimum clear width of forty four inches (44"), no part of which shall be within a parking space.
  - d. No more than fifty percent (50%) of the front yard (including setbacks) can be used for parking.

B. General Use Provisions For Off Street Parking Spaces:

1. Living In Vehicles: Living, sleeping, or housekeeping in any vehicle, "trailer", or vessel (as defined in division VI, "Zoning Definitions", of this title) is prohibited when parked or stored on private property.
2. Automobile Parking Only: Parking facilities shall be used for automobile parking only. No sales, dead storage, repair work, dismantling, or servicing of any kind shall be permitted without necessary permits for such use. The only exception to this rule being for temporary use of parking areas when the remaining number of unobstructed parking spaces complies with the

minimum parking requirements for the permanent use(s) of the property in accordance with section [17.58.050](#), table 17.58-1 of this chapter.

3. Residential Guest Parking: For residential tenant and guest parking, the spaces must be marked per the required minimum standards for tenant and guest parking.

C. Parking Regulations For Vehicles, Trailers, And Vessels: The parking regulations in this section apply to all "commercial vehicles", "passenger vehicles", "recreational vehicles", "trailers", and "vessels" as defined in division VI, "Zoning Definitions", of this title. Unless otherwise specified, the term "vehicles" used herein refers to "commercial vehicles", "passenger vehicles", and "recreational vehicles".

1. Inoperable/Unregistered Vehicles, Trailers, And Vessels: Any vehicle, trailer, or vessel which is inoperable and/or without current registration shall be stored entirely within an enclosed structure and shall not be parked or stored in any yard within a residential zoning district or neighborhood.

2. Commercial Vehicle Parking: Commercial vehicles weighing five (5) tons or more are prohibited on any street or parcel within a residential zoning district or neighborhood. Additionally, in order to maintain public safety and residential character, commercial vehicles weighing more than one ton may only park on residential streets and/or lots long enough for typical residential delivery and pick up, moving, and towing. Commercial vehicles weighing less than one ton may be permitted in residential zoning districts and neighborhoods consistent with applicable provisions of this title. See chapter [17.82](#), "Home Occupations", of this title.

3. Recreational Vehicle Parking: Recreational vehicles of an owner, tenant, guest, or visitor may be parked on any highway (street) for a maximum period of seventy two (72) hours. Any request to extend this period for guests and visitors shall be submitted in writing to the chief of police for consideration and authorization. Recreational vehicle storage is prohibited in required front and street side yards. However, recreational vehicle parking is permitted outside of required front and street side yard setback areas and within interior side and rear yards when screened by a solid six foot (6') tall fence, wall, and/or landscape barrier. Screening shall be consistent with chapter [17.52](#), "Fences And Walls", of this title.

D. Tandem Parking: Tandem parking may be used to satisfy off street parking requirements on single-family residential and duplex residential lots or in those areas in which it is infeasible to meet the strict standards of this title as determined by the director of planning. (Ord. 473 §3, 2007)

## 17.58.050 Number Of Parking Spaces Required:

---

A. Off Street Parking Requirements: The city's off street parking requirements are listed by land use classifications in table 17.58-1 of this section. Except as otherwise specifically stated, the following rules apply to table 17.58-1 of this section:

1. "Square feet" means "gross square feet" and refers to building area unless otherwise specified.
2. Where parking spaces are required based on a per employee ratio, this shall be construed to be the total number of employees on the largest working shift.
3. For the purpose of calculating residential parking requirements, dens, studies, or other similar rooms that may be used as bedrooms shall be considered bedrooms.
4. Where the number of seats is listed to determine required parking, seats shall be construed to be fixed seats. Where fixed seats provided are either benches or bleachers, such seats shall be construed to be not more than eighteen (18) linear inches for pews and twenty four inches (24") for dining, but in no case shall seating be less than determined as required by the uniform building code.

B. Shared Parking: The city's off street parking requirements are listed by land use classifications in table 17.58-1 of this section, however, in certain instances, and upon issuance of a conditional use permit, site conditions may warrant a shared parking arrangement. Where two (2) or more uses have different periods of peak parking demand (e.g., a restaurant and an office) and share a common parking supply, the number of spaces required is reduced. To calculate the reduction in the required number of spaces, the following methods are acceptable:

1. The methodology provided in the Urban Land Institute publication "Shared Parking" may be used to calculate the reduction. For the base parking ratios (i.e., the parking space ratios required before taking into account sharing of spaces), the requirements of this section shall be used.
2. The applicant may provide a shared parking study that is acceptable to the review authority. (This methodology may be necessary for uses not covered in the shared parking manual.)

C. Minimum/Maximum Parking Requirements: Unless off street parking reductions are permitted consistent with section [17.58.060](#), "Reduction Of Off Street Parking Requirements", of this chapter, the number of off street parking spaces required in table 17.58-1 of this section shall be considered the minimum necessary for each use. In conjunction with discretionary development permits, the designated approving authority may increase these parking requirements if it is determined that these requirements are inadequate for a specific project. By the same token, the designated approving authority may decrease the required parking for a specific use as specified in chapter [17.16](#), "Permit Requirements", of this title.

D. Uses Not Listed: The number of parking spaces required for uses not specifically listed in table 17.58-1 of this section shall be determined by the planning director based on common functional, product, or compatibility characteristics and activities, as provided in section [17.26.030](#), "Similar Uses", of this title.

E. Calculation/Rounding Of Quantities: When the calculation of the required number of off street parking spaces results in a fraction of a space, the total number of spaces shall be rounded to the nearest whole number (<0.49, round down; >0.50, round up).

F. Mixed Use/Multiple Tenants: Except as otherwise provided in this section, for each separate use on a site with multi-tenants, or a combination of principal uses in anyone facility, the development shall provide the aggregate number of parking spaces for each separate use. Parking for retail commercial shopping centers may include restaurant uses up to the maximum percentage of total site square footage, as described in table 17.58-1A of this section, when the indicated percent of the retail parking ratio is used to calculate the number of parking spaces required. Retail commercial shopping centers are allowed to have up to thirty five percent (35%) of their square footage taken up by restaurant uses when calculating parking with this method.

**TABLE 17.58-1A**

**PARKING RATIO PERCENTAGES FOR SHOPPING CENTERS WITH RESTAURANT USES**

Percent Of Total Square Footage For Restaurant	Parking Ratio
0-10	4.5 spaces/1,000 square feet
10-25	6.75 spaces/1,000 square feet
25-35	8.1 spaces/1,000 square feet

G. **New Buildings Or Development Projects Without Known Tenants:** If the type of tenants that will occupy a nonresidential building are not known at the time of the development entitlement or building permit approval, the amount of parking shall be the minimum number of spaces required by table 17.58-1 of this section for the most intense land use allowed within the underlying zoning district that can reasonably be accommodated within the entire structure/project as determined by the planning director. The designated approving authority may grant exceptions to this rule where the use or other restrictions ensure adequate parking is provided (i.e., rezone agreements).

H. **Tenant Spaces With Multiple Functions:** When a tenant of a building has several functions, such as retail and office space, the amount of parking for the tenant shall be calculated as required in table 17.58-1 of this section for the primary use, using the gross floor area of the building.

I. **Tenant Spaces With Accessory Storage:** When a tenant has enclosed accessory storage in excess of two thousand (2,000) square feet, the required parking for that portion of the tenant space dedicated to storage shall be calculated as specified in table 17.58-1 of this section for warehousing, storage, and distribution (in addition to the parking requirements for the primary use of the building).

(Ord. 473 §3, 2007)

### **17.58.060 Reduction Of Off Street Parking Requirements:**

Commercial, office, or industrial projects may request a reduction in the minimum number of parking spaces required, provided they include facilities, programs, or services that reduce the overall parking demand for the site, contingent upon approval from the approving authority.

A. Facilities And Programs: A proponent of an office, commercial or industrial project may provide alternative facilities or programs which serve to reduce parking demand in return for a reduction in vehicle parking requirements. Vehicle parking requirements may be reduced in accordance with the following provisions:

1. Shower/Locker Facilities: Developments with ten (10) or more employees may reduce their parking requirement by providing shower and clothing locker facilities for bicycle commuting employees. Maximum reduction: Ten percent (10%) of required parking.
2. Secure Bicycle Parking: Developments that provide additional secure bicycle parking facilities over and above the minimum requirement may reduce their parking requirement by one vehicle space for every additional bicycle space provided. Maximum reduction: Fifteen percent (15%) of required parking.
3. Motorcycle Or Low Speed Vehicle Parking: Developments that provide motorcycle or low speed vehicle parking may reduce their parking requirement by one vehicle space for every additional motorcycle or low speed vehicle space provided. Maximum reduction: Fifteen percent (15%) of required parking. Low speed vehicle spaces must be equipped with no cost to user charging facilities.
4. Preferred Car Pool/Vanpool Parking Spaces: Office or industrial developments which guarantee preferred parking spaces (e.g., covered, shaded, or near building entrance) to

employees who participate regularly in a car pool or vanpool may reduce their parking requirement by one vehicle space for every one space which is marked and reserved for car pools/vanpools at a preferred location. Maximum reduction: Five percent (5%) of required parking.

B. Special Circumstances: Off street vehicle parking reductions may also be granted when the applicant for a single or combined use can prove to the designated approving authority that the nature of the proposed use(s) or the proximity of the facility to alternative modes of transportation justify the requested parking reduction. This subsection includes shared parking reductions due to variation in peak demands. (Ord. 473 §3, 2007)

**17.58.070 Handicapped Parking Requirements:** 

---

A. Number Of Spaces, Design Standards: Parking spaces for the disabled shall be provided in compliance with uniform building code and the Americans with disabilities act.

B. Reservation Of Spaces Required: The number of disabled accessible parking spaces required by this section shall be reserved by the property owner/tenant for use by the disabled throughout the life of the approved land use.

C. Upgrading Of Markings Required: If amendments to state law change standards for the marking, striping, and signing of disabled parking spaces, disabled accessible spaces shall be upgraded in the time and manner required by state law. (Ord. 473 §3, 2007)

**17.58.080 Compact Parking Spaces:** 

---

Up to twenty five percent (25%) of the required number of parking spaces may be sized for compact cars, and shall be clearly marked "COMPACT". Compact parking spaces shall be distributed throughout the parking lot. (Ord. 473 §3, 2007)

**17.58.090 Parking Design And Development Standards:** 

---

A. Surface Parking: All surface parking areas, other than those provided in a garage or parking structure, shall have the following improvements:

1. Paving, Drainage Facilities: Paving and adequate drainage facilities as specified by the public works director.

2. Clear Signage, Pavement Markings: Clear signage and pavement markings to indicate entrances, exits, aisle directions, and other features required to ensure the safe movement of vehicles.
3. Parking Area Design: Parking areas for commercial, industrial, and multiple-family residential uses, not including duplexes and single-family residences, shall be designed so that vehicles are not permitted to back out of the parking area onto a public street.
4. Landscaping: Landscaping shall be provided in compliance with chapter [17.54](#) of this title.
5. Lighting: Parking areas shall have lighting capable of providing adequate illumination for security and safety. Lighting fixtures shall be energy efficient. Lighting standards shall be in scale with the height and use of the on site structure(s). All illumination, including security lighting, shall be directed downward, away from adjacent properties and public rights of way in compliance with chapter [17.56](#), "Lighting", of this title.
6. Vehicle Overhang: Vehicular overhang is permitted, provided no vehicle shall overhang into a sidewalk that would reduce the unencumbered width of a sidewalk to less than four feet (4'). A vehicle is permitted to overhang into a landscaped area by two feet (2'), provided that the required landscape area is extended by two feet (2').

B. Access To Parking: Access to parking areas and curb cuts for driveways shall be approved by the planning director and public works director to ensure an efficient and safe traffic flow into the parking areas and along public streets.

C. Dead End Aisles: Dead end aisles are discouraged. When used, ninety degree (90°) angle stalls are required and the aisle shall have a minimum five foot (5') backing area.

D. Parking Space And Aisle Dimensions: All parking areas shall be designed so that the parking spaces are permanently maintained and have suitable maneuvering space and access to and from a public street or alley. The dimensions of each parking space shall be determined from table 17.58-2 of this section:

**TABLE 17.58-2**

The deficiencies described pose an imminent threat to any persons and property on the premises. Consequently, this building is unsafe to occupy and shall be vacated immediately. Copies of the attached notice shall be posted on all potential entrances.

or

Effective [specify date], this building shall be vacated due to the threats to persons and property on the premises posed by the deficiencies described above. Upon that date, copies of the attached notice shall be posted on all potential entrances.]

[If the building must be demolished, insert this in place of the following two paragraphs:  
Due to the structural deficiencies and extent of disrepair, this building shall be demolished. Demolition shall commence within \_\_\_\_\_ [not to exceed 60] days and be completed within \_\_\_\_ days of the date of this Order.]

You are ordered to commence work correcting these deficiencies within \_\_\_\_\_ [not to exceed 60] days from the date of this Order and to complete the required corrections within

If the required actions are not commenced or completed in accordance with the timetable indicated, the building shall be ordered vacated and the City may proceed to cause the work to be done and charge the costs incurred against the property or its owners.

Failure to comply with this Order constitutes further violation of the Municipal Code and may subject you to criminal prosecution, including six months' imprisonment and a fine of \$1,000, as provided in chapter 1.12 of the Municipal Code, as well as civil enforcement. Any violation of this Order that is committed and continues from day to day constitutes a separate offense.

If you, or any person with a legal interest in the property, wish to dispute this Order or any action of the Building Official, the interest holder may, within 30 [10 if building has been ordered immediately evacuated] days from the date of service of this Order, appeal to the Board of Appeals. Any appeal must be made in accordance with the attached copy of chapter 5 of the Uniform Code and filed with the Building Official and the attached sample appeal form. Failure to submit a valid appeal shall constitute a waiver of all right to an administrative hearing and determination of this matter. **Administrative Citation:** The City of Greenfield Municipal Code Section 1.25.030 provide for the issuance of administrative citations for Municipal Code Violations. There are three levels of citations that can be issued progressively for a violation. The fines, as indicated on the front of the citations, are \$100.00 for the first citation, \$200.00 for the second citation, and \$300.00 for the third and subsequent citations for the violations of the same Greenfield Municipal Code section within 36 months. These citations may be issued each day the violation(s) exists. A warning, if issued, does not incur a fine, and therefore, may not be appealed

**How to Pay Fine:** The amount of the fine is indicated on the front of the administrative citation. Prior to receiving an invoice from the City Clerk you may pay in person at 559 El Camino Real Community Development Department, Greenfield, CA. Payment should be made by personal check, cashiers check, or money order, payable to the City of Greenfield. Please write the APN # number on your check or money order.

If the citation is not paid or appealed within thirty (30) days from the date of issuance or mailing of the citation, whichever is later, a ten percent (10%) penalty fee will be added. You will also receive an invoice from the City Clerk. Please follow the instructions on the invoice to ensure proper processing of your payment. Payment of the fine shall not excuse the failure to correct the violation nor shall it bar further enforcement action by the City of Greenfield.

**Consequences of Failure to Pay Fine:** The failure of any person to pay the fine assessed by the administrative citation within the time specified on the citation or the invoice from the Finance Department may result in any legal remedy available to collect such money. The City has the authority to collect all costs associated with filing of such actions. Failure to pay fine requirements may be found in the Greenfield Municipal Code Section 1.25.030.

**Consequences of Failure to Correct Violations:** There are numerous enforcement options that can be used to encourage the correction of the violation(s). These options include, but are not limited to: civil penalties, abatement, criminal prosecution, civil litigation, recording the violations with the County Recorder and forfeiture of certain tax benefits for substandard residential rental property. These options can empower the City to collect fines up to \$100,000, to demolish structures or make necessary repairs at the owner's expense, and to incarcerate violators. Any of these options or others may be used if the administrative citations do not achieve compliance.

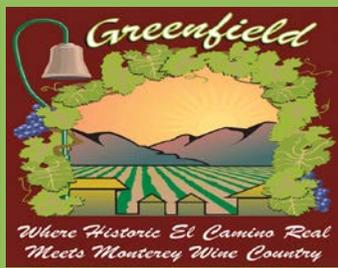

If you need further clarification about payment of the citation, please call the City of Greenfield Code Enforcement at (831) 674-5591 ex 2139. If you need further information about the violation(s) and/or how to comply, please call the officer designated on the front of the citation.

**Rights to Appeal:** You have the right to appeal the administrative citation within thirty (30) days from the citation date together with an advanced deposit of the fine along with a Request for Hearing form or Advance Deposit Hardship Waiver form. An appeal must be in writing and brought in 599 EL CAMINO REAL, Attention of the "CITY CLERK." A properly filed appeal will result in an administrative hearing

Failure of any person to properly file a written appeal within the specified time shall constitute a waiver of his or her right to an administrative hearing and adjudication of the administrative citation.

A full description of the hearing process for the City's Clerk for Municipal Code violations and your rights in that process are found in the Greenfield Municipal Code Sections 1.25.030- 1.25.130.

## Did you know . . .

### Parking on Unpaved Surfaces

Greenfield Municipal Code Section 17.58.040

Vehicle parking (and access thereto) in residential areas shall be on permanent paved or other approved surface.

No more than 50 percent of the front yard (including setbacks) can be used for parking.

Municipal codes are local laws enacted to provide for the health, safety and beautification of the community.

### Some issues include

**Health** - Violations of some codes create the perfect conditions for insects and rodents that can breed disease.

### Commercial Vehicle Parking.

Greenfield Municipal Code Section 17.58.040

Commercial vehicles weighing five tons or more are prohibited on any street or parcel within a residential Zoning District or neighborhood. Additionally, in order to maintain public safety and residential character, commercial vehicles weighing more than one ton may only park on residential streets and/or lots long enough for typical residential delivery and pickup, moving, and towing.

**Safety** - Violations of some codes may create fire and/or entrapment hazards and obstructions to safe vehicle and pedestrian traffic.

### Inoperable/Unregistered Vehicles, Trailers, and Vessels.

Greenfield Municipal Code Section 17.58.040 and Section 10.16.180

Any vehicle, trailer, or vessel which is inoperable and/or without current registration shall be stored entirely within an enclosed structure and shall not be parked or stored in any yard within a residential Zoning District or neighborhood.

**Beautification** – Clean, well maintained properties not only enhance health and safety, they also discourage crime and enhance property values.

### RV Stored in Public View

Greenfield Municipal Code Section 17.58.040

Recreational vehicles of an owner, tenant, guest, or visitor may be parked on any highway (street) for a maximum period of 72 hours. Recreational vehicle storage is prohibited in required front and street side yards. However, recreational vehicle parking is permitted outside of required front and street side yard setback areas and within interior side and rear yards when screened by a solid six-foot tall fence, wall, and/or landscape barrier.

### Parking on Street

Greenfield Municipal Code Section 10.12.030 & 10.12.040

Parking on street--Time limitations. No person who owns or has possession, custody, or control of any vehicle, trailer, mobile home or boat shall park such vehicle, trailer, mobile home or boat upon any street or alley for more than a consecutive period of seventy-two hours.

Storage on streets--Prohibited. It is unlawful for any person to park, keep or store any motor vehicle which has been dismantled or is in a state of disrepair upon any street or alley in the city.

Most property owners maintain their investments, and many others are simply unaware of the codes and the reasons behind them. The goal is to inform property owners and tenants of the rules and regulations governing residential property with the goal of voluntary compliance.

- (e) The code enforcement appeals board may continue a hearing to request additional information from the code enforcement officer and/or appellant and/or to conduct an inspection of the location of the violation prior to concluding the hearing.
- (f) If the violation is non-conformance with a permit issued under Title 15, 16, or 17, the code enforcement appeals board may continue the hearing and refer the violation to the commission that issued the permit for additional information and/or recommendation, including the zoning administrator, design review commission, planning commission, or city council.

Hi Nina

Because of business obligations I find myself unable to make it to the code enforcement meetings. For this reason I am tendering my resignation from my position on the committee. Would you please extend my apologies to Susan and the other committee members?

Susan,

I wanted to thank the City of Greenfield for the opportunity to serve in some capacity in regards to code enforcement though not much has done on my part with the few meetings that we have had. It is great to see the codes of this city finally being enforced and this will no doubt improve the standard of living and looks of Greenfield. I also believe that our code enforcement officer is doing an outstanding job.

With all that said, I am giving my resignation from the board effective immediately. I know that there is someone in our community that will be able to fill that position and serve effectively.

Thank you again for the opportunity to have served.

Sincerely,

Jim Kilgore

**RE:** Code Enforcement Management

---

During the past week, Board member Bautista expressed concerns regarding the transparency between the Code Enforcement Department and the Board. Specific concerns have been expressed regarding open case investigation and city management. The following questions have been submitted for discussion:

- If not allowing a Board member access to open case status and information due to privacy, why was this information provided to the Board in August 2014?
- Why did the Board discuss open cases at its last public meeting?
- Is there any legal justification or requirement to withhold information from Board members regarding current open cases?
- Should Board members be kept apprised of the ongoing work of the Code Enforcement Officer?
- Why did the City create a Code Enforcement Board if staff is unable to share case management information with the Board?
- Is this how other Code Enforcement Boards operate?

The City is available to discuss these concerns and to address other issues which impact the transparency and compliance with the Brown Act.
