HIGH EFFICIENCY TOILET REBATE PROGRAM

The City of Greenfield offers a High Efficiency Toilet Rebate program to provide financial assistance to customers wishing to replace older, high water use toilets with high efficiency toilets in their home. The rebate amount is \$150 or the cost of the toilet, whichever is less. This rebate program is for single and multi-family residential customers and properties only. Maximum of three (3) rebates per residential property. The amount of rebate may not exceed the customer's actual cost. Installation of the toilets is the sole responsibility of the applicant. This rebate program is available on a first-come-first-serve basis subject to funding availability.

Rebate Eligibility Requirements

- The toilet(s) must be installed at a location served by the City of Greenfield. The applicant must be the property owner or an authorized agent.
- The toilet(s) must be rated at a maximum of 1.28 gallons per flush (gpf) or have a dual-flush mechanism and bear the blue and green EPA WaterSense label to qualify for a rebate.
- The toilet(s) must be purchased new at retail price on or after June 1, 2015.
- The rebate does not apply to toilet seat, fittings, or installation charges.
- An on-site inspection by a City representative, or other proof of installation, may be required to verify installation.
- Rebates are only available for replacing older, existing toilets that use 3.5 gallons per flush or more. Rebates are not available for the replacement of another low flow (1.6 gpf) or high efficiency (1.28 gpf) toilet. But, Ultra High Efficiency Toilets (UHETs) with a maximum of 1.0 gpf (dual flush not included) are eligible for a rebate regardless of the type of toilet replaced.
- Proof of purchase and installation is required. Attach to the completed application form either the original sales receipt or the itemized plumber's invoice showing the toilet model and date of purchase.
